Conference Research: Sep 28 - Dec 31, 2026

Micro/small-cap investor, PIPEs and capital-markets conferences, with bank-hosted and adjacent events. Research date: 2026-09-28 (retrieval date for every source below).

Read this first

- **Nothing here was verified on an organizer's own page.** The network proxy blocked all four of your example sites and most organizer sites. Dates come from web-search results (titles and page summaries) and company press releases. Column 'Conf.' shows: **Confirmed** = dates and location stated in at least one retrieved source; **Partial** = a field is missing, single-source or conflicted. Unverified items are in their own section and carry no dates you should rely on.
- **Method for counts:** tallies of rows in the tables below: 60 dated events (Tier A 17, Tier B 20, Tier C 23); 36 Confirmed, 24 Partial; 15 further leads are unverified.
- **Your four examples:** Lytham Partners Fall 2026 (Sep 29-30, virtual), NIBA 153rd (Oct 6-7, Fort Lauderdale) and The PIPEs Conference (Nov 4-5, Hollywood FL) all appear in the tables. **MeetMax event_145007 could not be identified** (meetmax.com is blocked and searching the ID found nothing). Please tell me the conference name or allow the host and I will add it.
- **Coverage is incomplete.** The search budget ran out in each research thread before many banks and sectors were searched (see Coverage gaps). Treat this as a strong first pass, not an exhaustive list.

Coverage gaps

- Not searched (WebSearch budget of 200 calls ran out in each research thread): KeyBanc, TD Cowen, William Blair, Susquehanna, Loop, Barclays, Wells Fargo, Deutsche Bank, BMO, RBC, Goldman Sachs, Raymond James, Canaccord fall events, BTIG, Chardan, Truist, Cantor fall events, H.C. Wainwright, Oppenheimer fall, Needham fall, Morgan Stanley and Citi/UBS December events, Capital Link investor events beyond the forums shown, Wall Street Reporter, Crescendo, KCSA, MZ Group, Alliance Advisors, TWST, Investor Brand Network, RedChip, Sequire, Proactive, MicroCapClub events.
- Sectors with no dedicated search: crypto/digital assets, cannabis/psychedelics, oil and gas/energy (e.g. EnerCom), consumer/retail, fintech, and Asia beyond SuperReturn Asia.
- Searched, nothing found in window: Lytham Partners events after Sep 29-30; any MeetMax-branded Q4 event; Context Summits; a fall SPAC/IPO conference; DealFlow's other fall events; Cambridge House fall events; Denver Gold Forum (timing reported as September).
- Excluded as off-category: J.P. Morgan corporate investor conferences (Nov 17-20, London/Paris/New York; sell-side sector events) and EPC Mining Summit Toronto (Nov 3-4).
- Excluded as outside the window (examples): Sidoti Sep 23-24; Emerging Growth Conference 96 (Sep 23-24); iAccess Alpha Fall (Sep 15-16); H.C. Wainwright (Sep 14-16); NIBA 152nd (Mar 11-12, 2026); DealFlow Discovery (Jan 26-28, 2027); NobleCon22 (Feb 23-24, 2027).

Audit: what I would fix or check before you ship this

- **No page was opened.** Every date in this document comes from search-result text (page titles, AI-written summaries of pages) or press-release text. All four of your example sites were blocked by the network proxy. Search summaries can be wrong, so 'Confirmed' means only 'dates and location are stated in at least one retrieved source', not 'verified on the organizer's site'. Before you ship, open each organizer page for the events you will act on.
- **Search coverage is incomplete.** See coverage gaps. The absence of an event here means 'not found', never 'does not exist'. In particular, the large bank-hosted institutional conferences are under-covered.
- **Northland date rejected.** Weekday cross-check failed: Dec 16, 2026 is a Wednesday, but the source said Tuesday. Moved to unverified leads.
- **Two agents' confidence downgraded.** Piper Sandler (aggregator only) and Wolfe (single issuer site) were reported as Confirmed; shown here as Partial.
- **Conflicts unresolved.** Maxim end date/scope; ThinkEquity venue; Jefferies London end date; SuperReturn Middle East dates; Mining & Critical Minerals Canada dates; Capital Link Oct 20 forum; Sidoti December end date; PIPEs stale AllEvents listing (Nov 13-14).
- **Year inferences.** Small Cap Showcase's year is inferred from weekday and registration text (Oct 1, 2026 is a Thursday). Several other single-source rows rely on one snippet.
- **ROTH Nov/Dec rows.** Event names come from InvestorWire's title; dates were matched to the B2i calendar by date only. Treat as leads until the ROTH page is read.
- **Organizer claims are not independently checked.** Attendance and company counts (e.g. NIBA '350+ investment professionals') are the organizers' own statements, relayed by search summaries.
- **Scope assumption.** You gave four examples, not a definition. I read them as micro/small-cap investor, PIPE and capital-markets conferences, and added bank-hosted sector conferences and adjacent dealmaking/private-markets events as separate tiers. If you meant a different category, the scoping should change.
- **Calculated figures.** Counts below are simple tallies of rows in this document. Weekday checks were computed with Python's calendar (datetime).
